MAKING YOUR TRAVEL ARRANGEMENTS

The island of Cyprus offers many different types of accommodation. From full board to self-catering, from coastal resorts and B&Bs in the countryside to town hotels close to the clinic in Nicosia, you will find a choice to suit a range of budgets and preferences.

As a general rule, expect to budget for around £1000 per adult for return flights and 5 nights accommodation. The cost will increase if you choose a higher standard of accommodation for example or if you choose or need to extend your stay.

If booking your travel and accommodation using an operator of your choice, please bear in mind that you may need flexibility in terms of changing flights and hotel bookings. Remember that as your egg donor is or you are being prepared, the actual date of egg collection and embryo transfer can vary and you may need to alter your booking accordingly.

We suggest contacting the travel agent recommended by Pedieos in Cyprus directly for quotes (contact details below). Please do mention that you are a patient of the clinic, as he will be able to offer you flexible flights. It is not advisable to book anything before you have an idea of when the egg collection will actually take place.

Mr. Evangelos Fournarakis, General Manager
Di-eF TRAVELNET Services Ltd, Centennial Building, 48 Them Dervi Str, Office 301, 1066 Nicosia, Cyprus

INTERNATIONAL EGG AND SPERM DONATION PROGRAMMES - ADDITIONAL COSTS

Consultations

Initial Consultation	£140
Follow Up Consultation	£100
Nurse's consultation, injection lesson, scans and administration at St George's House	£100
Counselling Session (mandatory for women or couples on the Egg Donation Programme or for single women receiving Donor Sperm IVF)	£90

Scans and Tests

Advanced Pelvic Scan with Doppler (detailed investigation of uterus & ovaries)	£150
Pre-IVF Scan (gynaecological scan prior to starting treatment)	£95
Early Pregnancy Scan (first Early Pregnancy scan is included in the treatment cost)	£120
Semen Analysis with MAR Test	£80
<i>NB Usually only the pre-IVF scan is necessary prior to commencing treatment. Individual cases vary.</i>	

Donor Sperm

Donor Sperm (per ampoule)	£225
---------------------------	------

Additional Procedures

ICSI Procedure	£460
TESA (depending on consultant used)	Variable
Mock Embryo Transfer (only needed in minority of cases)	£150

Blood Tests

HIV, Hepatitis B, Hepatitis C, CMV and Syphilis Package (including fee)	£236
HIV	£28
Hepatitis B	£26
Hepatitis C	£47
CMV	£68
Syphilis Screen	£42
Oestradiol (expect between 1-3 of these tests during treatment for the IVF cycle)	£26
Beta hCG (blood pregnancy test)	£29
Fee (payable each time one person's blood is sent for one or more tests)	£25
<i>NB Both partners need the "package" blood tests except where donor sperm is being used. We would only accept these blood test results if they are less than 6 months old. These tests can be done through your GP to minimise costs.</i>	

Medication

Fertility Drugs	Variable
5000iu hCG (for Donor Sperm IVF patients only – to time release of egg from follicle)	£6
<i>NB Medication costs vary according to prescription. Create Health Clinic endorses low doses of fertility drugs and Natural Cycle treatments wherever possible to further minimise the cost incurred by the patient.</i>	

Notes

Photocopies of complete medical notes, correspondence and test results – set fee	£25
--	-----

PAYMENT

All consultations, scans, blood tests and semen analysis performed before embarking on the treatment cycle should be paid per visit. If the patient has not yet decided to go ahead with the programme at the nurses' consultation, the patient should only pay the fee for that consultation (£100). Donor matching forms will not be processed until the Waiting List fee is paid (£250). The total cycle amount must be paid to Create Health Clinic before commencing the treatment cycle. If a treatment cycle is abandoned, charges will only amount to the cost of the scans (£150 each) and nurse's consultation (£100) at St George's House. Blood tests taken during the treatment cycle (for oestradiol levels) should be paid per visit.

If you have any queries call the clinic on 020 8947 9600 or e-mail info@stgeorghouseclinic.org.uk
